## **How to read a woman's mind.**

I know that sounds dumb but stick with me because it's not what you think. You see, if I told you that I could walk up to a woman and hear her thoughts, you'd either laugh or think I was full of B.S.....

Well, you'd be right to be skeptical, BUT check this out.....

You CAN read a woman's mind, because they ALL think the same way.

Women have been programmed to think in a certain way over centuries of evolution just to stay alive and reproduce. And these thought patterns are programmed into EVERY female. They can't help that they think that way, even if they try to fight it.

**Think about it.**

YOU are programmed to seek safety for survival -

a shelter (your home), food (to keep you alive), water... but beyond that, you are programmed to seek out certain things like, having friendship... Belonging to a group... Social things.

We ALL want these things. Very few people can be truly happy for long periods of time on their own. We seek human companionship and friendship. We ARE social beings.

Now women, are pretty complicated creatures, but almost EVERYTHING they do other than basic human needs are based on social needs.

### **Women NEED to be social**

And they are programmed to seek out and maintain satisfying social environments. That's really all women are about.

Now, if you can understand and believe in that concept then you really CAN read any woman's mind.

1/ You'll know what drives her.

2/ You'll know what she thinks and why.

3/ You'll know exactly what she looks for in a man.

4/ You'll know exactly what she find attractive.

5/ And you'll know exactly how to attract her (regardless of your looks, body or current social standing)...

6/ You'll know that when you compliment her, it lowers your value (unless you do it right)...

7/ You'll know that if you buy her a drink when you first meet her... she will think you're a loser.

8/ You'll know that if you take her to the movies or on a dinner date for your FIRST date, it'll lower your chances with her..

**AND...**

You'll know why.

Women are looking for a certain type of guy. It's a rare guy. 99.9% of men need not apply. She's looking for someone special. Someone unique. Somebody that's not like all the other guys...

And I'm going to show you EXACTLY what every girl is looking for (even if SHE doesn't know it yet) and how YOU can demonstrate those qualities to her.

## Copy + Paste = Facebook/MySpace women in bed.

Did you know that you can turn your computer into an automated "get hot women into your bed" machine?  
***Seriously...***

Think about it. Every girl out there uses either Facebook or MySpace or one of the other big social networking sites, and most of them aren't just occasional users. They **WORSHIP** those sites and use them every day.

They are like the new, hot girls "essential" tool. Almost as essential in their daily lives as a cell phone.

Well, if I told you there's a way you can use the Internet to get at **LEAST 3** dates per week, automatically.....

**Using COPY AND PASTE messages** in just 5 minutes every couple of days..... You'd be interested right?

I mean, it'd give you a **MASSIVE** unfair advantage over other men. While **ALL** of the other guys are sending messages like "hey cutie, I like your pics, hit me up" You'd be sending them **TESTED** and proven messages that **DRAW** them into conversation..... And a few more "written for you"

messages later..... You'd be meeting them on a date.

***Imagine that.....***

You'd CRUSH other guys. Well, we HAVE those messages. And they WORK. They work almost too well, I kind of feel likes it's unfair on the women to be giving these out. It makes it TOO easy to generate attraction.

***Well, you can get them from Black Belt Seduction***

Now the Black Belt Seduction course is NOT typically an online attraction course. It's a full system.

**Warning:**

Black Belt Seduction is unlike any other "attract women" product out there. It's not a book, it's not a DVD and it's not a seminar. It's what is called a "multi-modal" training system that uses text, audio, video and interactive elements to "implant" information into the students mind making learning much quicker and as the creators claim... "automatic".

It's the only attraction and seduction

course that uses the martial arts method of training. You start at White belt beginner and progress monthly through different belts, all the way up to Black belt and beyond.

Fortunately it's not a system where you need to be a Black belt before it starts to work. You'll get results after the first module or, "White belts" training and depending on how good you are with women right now, you could see a significant

improvement straight away.

The real power in the Black Belt system lies in the fact that due to the structure of the course and the way it's delivered in "belts" you can track your progress and see yourself actually improve over time.

Whereas normal education like books require you to read and remember, this system seems to force the information into your brain and influence your behavior automatically, so you never feel like you're "learning"... You just seem to get better.

It deals with everything from meeting them in a park during the day to

meeting them online.

And takes you step-by-step all the way from talking to them for the first time without getting blown out, regardless of what you look like, all the way to building trust, comfort and getting them into bed.

But remember, these Internet social networking sites are just one tool to get women, But because SO much of it can be automated in a click-click, copy and paste way, And because almost EVERY woman out there is on Facebook or Twitter or whatever.....

It'd be wrong NOT to use it - Hey, who wouldn't want a never ending, automatic supply of fresh dates? And you might think, well what do I do if I do get all these hot women on dates. What will I say to them?

..... Well, you'd use the rest of the Black Belt Seduction system.

It shows you what to do when you're on those dates to get the interaction to go the way you want (romantic... or otherwise ;)

### **Black Belt Seduction. A Must For All Men**

Don't you think it would be cool if you could make EVERY woman you meet and talk to - INSTANTLY

find you attractive? You could literally have your pick of women and let them fight over YOU for a change.

Sounds like the stuff of dreams? Well, until a recent discovery, it was.

This new course is so powerful it's like having an \*attraction button\* in your pocket that you can press any time you want to PUMP deep, genuine, sexual attraction and chemistry straight into her brain.....

And this stuff makes her forget everything about you. Not like some weird "rape drug", that would be bad... But it's like...

1/ She doesn't care how young or old you are.....

2/ She doesn't care what you look like or how good your body is.....

3/ She doesn't care how much you earn, how tall you are or how much you weight.....

4/ She just doesn't care.....

You pressed the button so she INSTANTLY finds you attractive

When you know about the "10 attraction triggers" in every woman's mind, and you know what they are, and how to flip them with mere words and actions. **You can have this metaphorical "button".**

Black Belt Seduction (BBS) is a new and revolutionary system for generating automatic, instant attraction in any woman's mind. It's not like other courses though. BBS uses martial arts based online training to IMPLANT tried and tested methods that WORK.

Black Belt Seduction is a unique, online training course that shows men how to attract and seduce women anywhere, regardless of how successful you are right now. What makes it different is the fact that the course is delivered just like a martial art - in belts.

So you start at white and progress up until Black Belt 1st Dan and beyond. The creators of the course claim this method of training allows "Implantation and absorption" of the information better than any other system and from what I've seen, I'd have to agree.

You go through the process and you get the results. If there's one thing I don't like about the course is sometimes it can get a little hard to follow with so much information each month, you

can sometimes get lost.

But if you follow the course, you'll be getting more high quality women in no time. I give Black Belt Seduction 5 out of 5 and recommend it highly whether you're just starting out or you're a highly seasoned pick up veteran.

But this course is not hard.....It's the opposite.

### **It's actually really easy.**

It takes you by the hand from White Belt beginner up to Black Belt expert pick up artist.

Anyway, I've taken a look at the BBS system and I can say there's nothing else like it. Every guy that wants more success with women will benefit from this.

I have to give Black Belt Seduction my highest recommendation and say that you should definitely check it out.
