## What to Say When Talking Dirty

Learning how to talk dirty to men often brings up the question of “what to say” when talking dirty. Most women that don’t know what to say when talking dirty feel like they’re being put on the spot, which is no way to feel about sex at all. In some cases, not knowing what to say when talking dirty can even put a screeching halt on the entire sexual experience, and things can get awkward – fast.

The secret to learning what to say when talking dirty to your man is found in your man himself.

What words and dirty talk phrases has HE used? What dirty phrases is HE comfortable with? Think of examples of dirty talk in your own sex life and start to see patterns of what your man says, what he wants, and what he expects. It’s all right there for you to piece together and learn for yourself.

But his wants, needs and desires in dirty talk are only half of the equation. YOU are the other half, and right now, that part is far more important. You have to be comfortable talking dirty with the words and dirty phrases you say before you can even attempt to talk dirty to your

man. In terms of “what to say when talking dirty”, there needs to be a middle ground.

Here’s a 3 step process for revealing the right words to say when talking dirty to your man:

- 1) Do your detective work and compile a list of words and dirty phrases you’ve either heard your man say, or you know for a fact he’s familiar with. Write them down (without judging them) on a piece of paper.
- 2) Once his list is done, compile a list of your own. Write down all words and dirty phrases that have worked for you in the past as well as dirty words and phrases you are already comfortable with using in your dirty talk. Again, do not judge your dirty words and phrases as you compile your list.
- 3) Compare the two lists and find dirty words and phrases that are included in both and circle them.

Once you’ve cultivated your personalized dirty words and phrases, the next step is to use them to talk dirty to your man. There are many ways you can use them in your dirty talk, and as you start talking dirty you will begin to realize what dirty talk phrases work best, and which ones don’t. Either way, it’s better to use dirty talk words and phrases that both you and your man are already familiar with, instead of taking a shot in the dark and talking dirty on your own.
